**Peasedown St John School**

At Peasedown St John, our curriculum intent for RE is important to us as a school, as it ensures children are able to achieve the best learning outcomes possible. It reflects the purposes and aims taken from Somerset Awareness, Mystery and Values (our MAT agreed syllabus for RE). We inspire our pupils with knowledge of the religions and beliefs which form part of contemporary society. We aim to contribute to pupil's personal development by promoting mutual respect and tolerance, offering opportunities for personal reflection and group discussion. Religious education contributes dynamically to children and young people's education in schools by provoking challenging questions about meaning and purpose in life, beliefs about God, ultimate reality, issues of right and wrong and what it means to be human. In RE they learn about and from religions and worldviews in local, national and global contexts, to discover, explore and consider different answers to these questions. They learn to weigh up the value of wisdom from different sources, to develop and express their insights in response, and to agree or disagree respectfully. Ultimately children will learn to be respectful and reflective individuals when learning about different faiths, making comparisons between them and making connections with their own lives. Teaching therefore should equip pupils with systematic knowledge and understanding of a range of religions and worldviews, enabling them to develop their ideas, values and identities. It should develop in pupils an aptitude for dialogue so that they can participate positively in our society with its diverse religions and worldviews. Pupils should gain and deploy the skills needed to understand, interpret and evaluate texts, sources of wisdom and authority and other evidence. They learn to articulate clearly and coherently their personal beliefs, ideas, values and experiences while respecting the right of others to differ.

We have chosen 'big ideas' (also known as 'threshold concepts') that build throughout our RE curriculum. These help children to develop conceptual understanding over time and to link old learning to new learning. The subject topics are mapped out to ensure coverage and to identify, logically and systematically, a clear progression in learning linked to these Big Ideas.

**Links to whole school curriculum drivers**

We have adapted the purposes and aims to ensure that it reflects the context of our school and the community it serves, aiming to improve children’s awareness of Fundamental British Values (FBV), Spiritual, Moral, Social and Cultural development by exploring the concepts of religion and belief to develop tolerance, respect, social awareness and the ability to ask questions about spiritual and moral issues. Therefore, when children are exposed to these aspects of the whole curriculum, it will motivate and encourage them, enabling them to improve their cultural capital and to become respectful and knowledgeable citizens.

The way that we have designed the curriculum engages pupils to read a wider breadth of fiction and non-fiction texts. We prioritise reading at PSJ by exploring different types of genres and texts to help children discover new information, both visually and through the written word. This enables us to put topics within subjects into a meaningful context, whilst building upon previous learning. As well as this, it helps children to recall important information and embed learnt knowledge from the short-term memory into the long-term memory. Through reading, we aim to expose children with differing needs to high-quality texts, with the aim of developing a wider range of vocabulary across all curriculum subjects, thereby building their cultural capital. In RE we aim to promote reading and vocabulary by exploring spiritual writings e.g. the bible, focussed research tasks, sharing religious stories and introducing and re-visiting subject specific vocabulary.

#### Disadvantaged and SEND Pupils

We recognise that all pupils are entitled to a quality of provision that will enable them to achieve their potential. We believe in positive intervention, removing barriers to learning, raising expectations and levels of achievement, in order to close the gap. High quality teaching that is differentiated and personalised will meet the individual needs of the majority of our children. We establish and maintain a culture of high expectations that expects children with SEND and those who are disadvantaged to be included in all the opportunities available to other children so they can achieve well.

We ensure that children with any additional needs are supported through regular assessment and feedback, scaffolding, target setting, pre-teaching, overlearning, recall activities, targeted interventions, 1:1 support and regular reviews of progress. Some children access the curriculum through a personalised timetable, such as Geography being taught through outdoor learning, or PSHE being taught through Sunshine Circles. RE can be picked up in English and in 1:1 sessions when appropriate.

#### Greater Depth within Religious Education

It is important in RE that we create opportunities for all children to demonstrate high ability. In turn we can then identify those who can, or have the potential to, work at a deeper level within the subject. This will enable us to challenge and extend their learning further through purposeful planning, ensuring that the skills of these gifted and talented children are nurtured and developed.

A Greater depth learner in RE will:

- Recognise and express personal feelings but also empathise with others.
- Understand faiths at a deeper level: Analyse, reason, make comparisons and put forward an argument sensitively integrating ideas from a number of sources. Also to intervene appropriately and to continue an argument.
- Reflect upon and integrate different kinds of knowledge. Reflect personally internalising knowledge.
- Can use intuition and personal experience as shared learning with others.

**Assessment for and of learning**

We recognise that the purpose of assessment is to identify where there is under or over provision for learners so that any problem can be addressed promptly. Therefore teachers have a clear understanding of the expectations for their year group and the relevant milestone; know what good learning looks like on a daily basis and over time; and know that it is their understanding of **how** a pupil completes a task or activity that enables the pupil to clearly demonstrate **what** they have learned and their **depth** of learning.

Teachers complete ongoing informal assessments on children's learning that help them to identify gaps in learning which can be addressed promptly. These may be in the form of careful questioning, recall quizzes, mind maps or other assessment for learning tasks, or through assessment of the child's exercise book.

**End of phase expectations in the skills of Religious Education**

Children are assessed for the knowledge that they have learnt and the skills they have developed and honed. We expect every child to reach the 'advancing' stage of development according to their milestone. A few children will reach deeper levels of understanding and some children will only attain a basic level of understanding.
